

August 21, 2024

To representatives from Climate Action Network Canada, David Suzuki Foundation, Environmental Defence Canada, Oil Change International, Sierra Club BC, Stand.Earth and Wilderness Committee:

We would like to acknowledge receipt of your correspondence dated August 1, 2024 related to Export Development Canada's support to the CedarLNG project and the Coastal GasLink pipeline.

As many organizations in Canada and around the world, EDC is actively managing the complexity of translating the global energy transition into practice.

For more details on our efforts in this regard, we encourage you to refer to our most recent [Integrated Annual Report](#) and our most recent [climate-related disclosure](#), as well as other response letters related to CedarLNG and Coastal GasLink posted on our [transparency and disclosure page](#).

We will continue to actively contribute to Canada's efforts towards a transition to a lower carbon future, will remain engaged at international climate fora, and will continue to support and align with the Government of Canada as it develops its policy framework.

Thank you again for raising your concerns and sharing your perspectives.

Sincerely,

A handwritten signature in black ink that reads "Mairead Lavery". The signature is written in a cursive style and ends with a long, sweeping underline.

Mairead Lavery
President and Chief Executive Officer
